## Institutional Church Sunday School Anniversary

The Institutional Church Sunday School anniversary services will be held at Coleman on Sunday, the 23rd of June. Rev. Dr. Ferguson, superintendent of Presbyterian missions, will be the preacher. A special hymn sheet has been prepared and a choir of one hundred voices will conduct the singing. It promises to be a big rally of Sunday School scholars and young people. Dr. Ferguson will speak at 11 a.m., 2.30 and 7 p.m.

At the afternoon rally the children will sing special pieces and give recitations. Everything of a bright order.

On the Monday evening, the children will give a concert in the church, which will begin at 7.30, and every minute will be full of song and recitation.

The offerings of the Sunday afternoon and Monday evening services go to the work of the Sunday school.

A cordial invitation is extended to all the children and big folks in The Pass.

## Blairmore's Tax Rate is 40 Mills

An interesting session of the Blairmore town council was held last night, when many important questions were discussed. There were present Mayor Bebe and Councillors Dutil, Rose, Christophers, Johnston, McVey and Lagace.

A communication was received from Mr. J. E. Gillis, solicitor, stating in behalf of W. J. Heder that he intended taking action against the town to recover damages for loss of time and hospital and other expenses incurred on account of an accident which happened to Heder early in the year. Total damages were set at \$5,000.

The fire and light committee were asked to take the matter up, and if necessary the matter will be considered further at a special meeting of the council.

The McLaren Lumber Co. applied for the right to connect up a service main with the Blairmore water main, on condition that the Company would install their own system and pay the town for water used for domestic purposes, but that no charge be made for water used for fire protection. The request was on motion granted.

E. Hinds applied for permission to rearrange service wires, which was granted.

St. Thomas applied for light connection, which would require two poles, with his house on the north side. The light committee were asked to see to this matter.

A number of accounts were passed for payment, which included an account from A. Morency for some seventy dollars in connection with pipe connection with the Eleventh Avenue hospital.

The disputed accounts in connection with the work of the electrician in private residences were reported on by the light committee, who recommended the wiping off of the account against Mrs. Tiberg and acceptance of the offers of W. J. Bartlett and F. McLaren in settlement of accounts against them. On motion the secretary was instructed to effect settlement as suggested.

The offer of W. A. Bebe of transfer of Lots 1 to 6 in Block 9, and Lots 5 to 10 in Block 8, all in Plan 3319-I, in consideration of rebate of taxes on Lots 1 to 4 in Block 8, Plan 3319-I, was on motion accepted. The taxes due on the 16 lots amount to \$1437.76, while the twelve lots offered are assessed at \$2,875.00.

Before being put to a vote, Councillor Dutil questioned the right of the town to accept any lots in consideration of taxes on other lots. Under the tax enforcement he contended that once a lot was forfeited and sold, no further claim could be made upon that lot if the amount required was not realized by the sale, and that if more than the amount required were realized, the extra amount had to be refunded to the party against whom such steps for collection were instituted. Councillor Lagace supported the contentions of Councillor Dutil, and when the question was put to a vote, the following result was recorded: Year—Christophers, McVey, Johnston and Rose; nays—Dutil and Lagace.

Councillor Dutil presented a table of estimates for the year 1918, which included the following:

Finance.....	\$ 7,665.85
Waterworks.....	875.00
Health and Relief.....	25.00
Fire and Light.....	7,757.00
Public Works.....	250.00
License and Police.....	745.00

Total.....\$17,417.00

The above did not include the \$10,725 due the Union Bank, but included the \$4,798 due the School District.

The total assessment for the year was \$273,344.00, and to raise \$10,900.00, a mill rate of 40 mills on the dollar was struck.

According to the Secretary, tax arrears now amounted to the enormous sum of \$28,596.35, and of 1917 current taxes only 50% had been collected, which was not an encouraging outlook.

Last year \$6,845.00 was levied for town purposes on a mill rate of 28.

Considerable of last year's debentures were not redeemed, so that this year debentures to be met amount to \$8,436.00.

On motion, By-Law No. 65, setting a mill rate for 1918, was read a first, second and third time and finally passed.

On motion it was decided to allow discount of 10% on taxes paid on or before August 31st, and 5% on taxes paid after that date, but not later than October 31st, 1918.

Christophers-McVey—That Secretary take necessary steps for the sale of lots conveyed by W. A. Bebe to the town. Carried.

Lagace-Christophers—That the Chief of Police be instructed to take the necessary steps to enforce the pound by-law. Carried. This action followed complaints made of cattle roaming around town at night to

## READ THE REASON FOR GERMANY'S BIG DRIVE ON THE WESTERN FRONT

THEIR EASTERN GAINS PROVE UNSUBSTANTIAL

Without a Future Upon the Sea Which Has Been the Cherished Hope Of the Enemy, Their Victory In the East is Only an Illusion

Germany's insistent drive on the western front betrays a dissatisfaction with what she has accomplished in the east. If her "triumphs" in Russia were as substantial as the kaiser in his vainglorious proclamations has tried to make out, Field Marshal von Hindenburg would not be hurrying his troops in France to certain destruction by scores and hundreds of thousands. The truth is that, serious as the German inroads upon Russia admittedly are, they do not signify the fulfillment of her ambition for political and economic dominion.

No matter how deeply the penetrates beyond the Russian border, she cannot realize her scheme of imperial expansion if her enemies hold the seas. She is still a beleaguered nation, though the iron ring of her adversaries has been broken in the east. She has no ocean commerce, her colonies are gone, her fighting ships are bottled up at Wilhelmshaven and Kiel.

As long ago as 1898 the kaiser said: "Our future lies in the sea." But, except for the Baltic and Black seas—and the wider activities of her submarines—Germany is cut off from the water. Her greedy plans for the acquisition of territory beyond the oceans have been checked. She has no longer any foothold in Asia or Africa, and South America, on which she formerly cast envious eyes, has risen against her. She cannot permanently content herself with exploiting the border provinces of Russia. Even if she is enabled through the downfall of the Russian power, to build a great fleet on the Black sea she will be confronted with the problem of getting it through the Dardanelles and into successful operation outside.

Thus the situation always comes back to the western front and the necessity, from the point of view of blood and steel that tells her there, for Mittel Europa plan depends for its value on her ability to renew her business connections with the overseas world. She has been willing to relinquish, if need be, her lauded gains in the west in exchange for permission to work her will on the road to India. But this has implied a return to the maritime facilities she enjoyed before the war. These the allies are in no mood to grant. They rule the oceans and so retain a vital advantage against her. And they will continue to do so unless she breaks down and shatters their military and naval power in the west.

With these simple facts in mind, the vicious energy of her present campaign is easily understood. She confesses with every fresh sacrifice of her man-power in Picardy the insubstantial character of what she has won on her eastern frontiers. So long as the gallant armies of the allies in Belgium and France—gathered with the ships of the entente—are able to hold her back, the imperial future she has dreamed for herself is impossible of attainment. She must crush her enemies where they have deliberately chosen to meet her supreme challenge—where today they oppose her with the great mass of their troops and war craft, and where they are systematically conserving their man-power at the expense of hers.

The German drive in the west for these reasons takes on a savage, wistful unknown heretofore. Even in this most fearful of wars. But the line and the resolution of the allies are unbroken, and Pétain's grim words still thrill in the breast of every defender of the world's freedom: "They shall not pass!"—From the Providence Journal.

**Payment of Jewellery Taxes**  
In connection with the new excise tax on jewellery it is announced at Ottawa that on May 1, 1918, the excise is to be paid when imported. On all goods made at home after that date, it is to be paid by the maker at the time of sale. Similarly on all goods made on April 30 the tax payment is to be made when the sale occurs.

**The Right Age**  
The young man claimed to have conscientious scruples. "In the year 1900," he said, "I was born again." "In that case," said the officer quietly, "have you any objection to joining the Boy Scouts?"—Boston Transcript.

## SMOKE JUICETS

## Sugar Saving 25 per Cent.

Saving About 100,000 tons of Our Normal Consumption  
The recent sugar restrictions passed by the Canada food board will have the effect of saving about 100,000 tons, approximately 25 per cent of our normal consumption. These restrictions are rendered absolutely necessary by the shipping and rail transportation situation. There is sugar in Cuba but we cannot get it into Canada. What we get we must conserve for preserving time.

## German Plot Discovered

A bomb containing five pounds of dynamite and declared by Owen Ragan, inspector of the bureau of constabulary, to be one of the most dangerous he has ever examined, was found the other day in a doorway of a five-story building owned by a German, and occupied in part by Life Publishing company, publisher of "Life," in New York city. The contraband weighed twenty pounds and was a foot long and half a foot wide. It was wrapped in a Philadelphia newspaper.

## Red Cross Moving Pictures

WILL BE A UNIQUE FEATURE OF THE CAMPAIGN IN MANITOBA

The Red Cross Penitentiary Moving Picture show will be an entirely unique feature of the June Red Cross campaign in Manitoba. It will be conveyed by the automobile and will carry its own operator, screen and lighting adjuncts. Indeed, the method of supplying light in the country school houses which are not equipped as a rule with electricity, is included in the plan to show a long cable to the headlight of the motor car, and run it into the school house. The "movie" show will then be on. When the speaker has finished, the cable will be detached and rolled up, the screen put away, and the "show" operator and speaker will hurry along to the next school district.

The province of Manitoba has been divided into thirty districts for the purpose of organizing the campaign. The Red Cross executive committee will be made up of members of the Manitoba executive in the larger centres of population. Perhaps the "piece de resistance" as the society editor would say, will be the Red Cross moving picture show which will be shown on account of being produced under the direction of one thoroughly familiar with all phases of Red Cross activity in the province, the film will make a strong appeal to the people of Manitoba. The Winnipeg public has not been privileged to witness it yet.

The giving of money is such an old story, the secret power of the hood is daily giving life, limb, eye, sight, health and all that youth holds dear in order that we who stay at

One View of the Red Cross Campaign Parade in Winnipeg, Which will be Shown in Detail in the Red Cross Moving Picture, to be Displayed in All Through Manitoba During the Provincial Red Cross Drive in June

home may continue to dwell in peace unmolested by the pestilence of the Hun. E. F. Treitz, the representative of the United States food administration, who spoke in Winnipeg last night, brought home more clearly than ever what living life to westerners means. He said that the Red Cross is the agency which links the folks at home with the soldiers overseas. Its workers are always ready to sign their names on the canvasser's card, pledging themselves to give money to the Red Cross, because they know that by doing so, they render the most reliable and effective aid possible to the fighting men of Canada.

Each district in the province will be composed of three or four municipalities. A member of the executive of the Manitoba Red Cross will go out from the city to each of these districts. He will spend three or four days in the district, in order to organize a local committee which will be responsible for the campaign in that particular territory. The influential and highly respected men and women of the district will be asked to undertake the work of subdividing their municipalities and appointing canvassers.

Meetings will be held in all districts of the province for the purpose of making preliminary arrangements for the canvass. The organizer sent from Winnipeg headquarters will arrange mass meetings in the larger towns of each district. These will be held on the eve of the campaign, in order that the workers and the people who will be canvassed will have a chance to hear first hand from the men who have been wounded in France and Flanders, what the Canadian Red Cross does for the men when they are helpless and lonely.

There are scores of returned soldiers now convalescing from the effects of serious wounds who are not only willing but anxious to tell the people of Manitoba what the Red Cross did for them. They are in the trenches, in the hospital trains, in England, and in the prison camps of the Hun. These men feel they can serve their brothers who are still fighting in France best by urging every one to give generously to the Canadian Red Cross. In addition to the returned soldier, a local man will give an address on behalf of the Red Cross. The organizer from Winnipeg will continue to bring the great

W. H. Gardner, a member of the Manitoba executive of the Red Cross is now in England. In a letter received last week he states that over \$700,000 worth of supplies were given Red Cross depot in Picardy. Think of the numerous wounded, but think so that it means more money must be forthcoming from the people of Manitoba. The campaign organizers believe that one million and a quarter will be the handsome total of the city and country for the Manitoba Red Cross in 1918.

## FENDISH CRUELTY OF THE HUNS IS APPALLING TO ALL HUMANITY

ATROCIOUSNESS OF THE ENEMY IS FAST BELIEF

The Innate Beastliness Of the Men With Whom We Are Struggling In This War Precludes Any Possibility Of A Truce or Peace Arrangement

## What Germany Has Lost

War, From Every Angle, Proves a Losing Game for Germany

She has lost her high seas commerce. She has, therefore, lost her foreign trade.

She has lost her last colony, with the successful conclusion of the East African campaign.

She has lost her respect and confidence of most of the nations.

She has lost her former leadership in many realms.

She has lost her monopoly of the dye trade.

She has lost her supply sources of many raw materials that are essential to her industrial life.

She has lost millions of her sons.

She has lost her soul.

Russia a Doubtful Asset to Germany

Taking Hundreds of Thousands of Troops and Police to Organize and Control It

The loss of Russia to the allies is a doubtful asset to Germany; until she can organize it for industrial and agricultural purposes it is a huge liability, taking hundreds of thousands of troops and police to organize and control it. On the other hand, Russia's place has been taken by the immensely wealthy and powerful democracy of the United States, whose influence on the western front is already being felt.

It is for us now to have patience, to hold fast to the faith that is within us; for the day is rapidly approaching when we will have the absolute mastery of the air, and then the end of Germany is in sight. With her artillery blinded, her troops raked with the machine gun fire of our squadrons of the air, her munitions works splintered, her ammunition dumps and railways blown up, her towns devastated by avalanches of bombs, the war will be brought home to the German people. They will then and only then, realize what war means, and will mean to them if they are not made of the stuff that can "stick it."

To back up our faith and our ideals, for democracy is now on trial. Is it to be "Right is Might" or "Might is Right"?

Frozen By Pressure

The Ocean at a Depth of 34 Miles Turns to Ice

The belief seems to be widely held that at a certain depth an iron ship or any iron object will never suspended, floating about and never reaching the bottom. Those who believe this evidently confuse weight and pressure. A body sinks in a fluid when it weighs more than the fluid which it displaces, which evidently has the same volume as the body.

For this reason any heavy body will go to the bottom in water, since water is not incompressible.

An engineer of high repute recently took exception to this statement, saying that at a depth of 34 miles water would be as dense as cast-iron and therefore cast-iron would float at that depth. As frozen solid in the dense form of ice, frozen by the pressure of the water above it—T. H. B.

Impressionistic

Whistler once undertook to get a fellow-artist's work into the autumn salon. He succeeded, and the picture was hung. But the painter, going to see his masterpiece with Whistler on vanishing day, uttered an exclamation of dismay.

"Good heavens!" he cried, "you're exhibiting my picture upside down."

"Hush!" said Whistler. The committee refused to the other way.—Boston Transcript.

Nine Million Without Bread

Food shipments from the United States to the civilian populations of the allies were suspended for ten days to move three million bushels of grain for the Belgian relief. It is reported that more than nine million people in Belgium and Northern France are practically without bread.

Carter's Little Liver Pills

For Constipation

A vegetable remedy that always gives prompt relief in constipation. Bile is secreted and sent to the liver, which stimulates the liver to secrete bile, and thus keeps the system in full and healthy action, and the stomach and bowels to their natural functions. Making life worth living.

Small Pill, Small Price

ROSY CHEEKS OR UNHEALTHY COLOR indicates liver in the blood. Pale or sallow complexion is a warning. A course of Carter's Little Liver Pills will restore the blood to its natural color.

Hog Raising Pays

Pork at Cost of \$3.30 a Hundred  
Pounds

Eight hundred hogs were marketed  
from the Dominion Experimental  
Farm at Lacombe, Alberta, during  
the twelve months ending April 30,  
1925.

It is claimed that pork was produced at  
a cost of \$3.50 a hundred pounds on  
alfalfa, with self-feeder, and at \$3.30 a hundred  
pounds on rape pasture, with self-feeder. A  
comparison of the cost of raising hogs in  
this province is a paying proposition.

Deciduous

"Jack is a deciduous man."

"What makes you think so?"

"He pretended to believe me last  
night when he knew very well I was  
lying to him."

"WHO WILL WIN  
THIS BATTLE?"

Your kidneys are the filters of the body.  
If they become inactive and fail to elimi-  
nate the waste matter, they are apt to  
throw the whole mechanism of the body  
out of order, thus toxic poisons can ac-  
cumulate in the system and be as deadly  
as snake venom.

Besides causing the minor ailments of  
rheumatism, neuralgia, lumbago and back-  
ache, neglect of the kidneys is apt to  
develop into more serious diseases, such  
as diabetes or stone in the bladder.

Did the body ever exist cleaner,  
the bladder and kidneys and cure the  
troubles of rheumatism with Auric and  
you will the battle of life.

Auric was first described by Dr.  
Pierce, and has benefited thousands of  
sufferers as well as expressed and elimi-  
nated the ravages of the most serious kid-  
ney disease. Not procurable at all  
drug stores or read Dr. Y. M. Pierce  
Favall's Hotel, Buffalo, N. Y., or branch  
office, Hildreth, Ont., 10 cents for full  
package.

Thorold, Ont.—"I was wonderfully  
helped by taking 'Auric.' For about  
three years I had kidney trouble and rheu-  
matism. I also had backache. My limbs  
would swell and I had rheumatism in my  
arms and hands. My hands would swell and  
joints would be so sore and stiff I could  
scarcely do my work. They would pain me  
sometimes awfully."

doctored but without relief. At last I  
saw 'Auric' advertised. I began its use  
and two bottles completely cured me of  
all my rheumatism, and I think it was  
permanent for that was a year ago and  
I have never had any return of the trouble.  
I have never found a medicine so  
good as 'Auric.'—Mrs. B. H. Howe,

## Trees on the Prairie

Long Stretches of Level Prairie  
Would Be Broken and  
Beautified

Dr. W. W. Andrews of Regina has  
a clear idea of one of the chief needs  
of Saskatchewan—Dr. Andrews pro-  
poses, that the Regina Leader says, pro-  
poses that "each road in the province  
be guarded by four rows of trees, of  
either side. The two inner lines of  
trees, that is, those on the road line  
on either side, should consist of ash  
and elm. These should be intermixed  
with more rapidly-growing trees to  
afford almost immediate protec-  
tion, and which could be removed as  
the permanent trees become of suffi-  
cient size. The outer row on each  
side should consist of caragana,  
poplars, etc., which could be made to  
grow sufficiently dense near the  
ground to act as wind breaks and  
snow guards.

With this scheme carried into ef-  
fect, Dr. Andrews says, there  
would be no deep drifts on the roads  
in winter, the trees would point the  
way in future, and make the roads  
safe even for school children in winter,  
hot winds would not dry up the  
fields as now, and long stretches of  
level prairie would be broken and  
beautified, as countless roads in  
Ontario are benefited now by ave-  
nues of trees.

## BUILD UP THE BLOOD

You Cannot Have Health if the  
Blood Is Weak and Watery

It is a hopeless task to try to re-  
store your health while your blood is  
deficient in quantity or quality. The  
blood circulates through every por-  
tion of the body. It takes nourish-  
ment from the food and distributes it  
to the various organs and muscles. It  
takes also any medication that is ad-  
ministered through the mouth. The  
blood is the only means by which  
the medicine can reach the nerves.  
Hence if the blood is poor the body  
becomes weak and the nerves shaky,  
and the victim may be troubled with  
headaches and dizziness, poor ap-  
petite, indigestion, a constantly tired  
feeling or perhaps to rheumatism,  
sciatica or neuralgia. Poor blood is  
the forerunner of nearly every ail-  
ment to which mankind is subject  
and you can only enjoy robust health  
by keeping the blood rich, red and  
pure. To keep the blood in good con-  
dition no medicine yet discovered can  
equal Dr. Williams' Pink Pills. Every  
dose helps to make new, rich blood,  
which carries new health and new  
strength to every part of the body.  
When you become weak and pale,  
Dr. Williams' Pink Pills restore the  
blood, bring the glow of health to  
the cheeks, and give you strength, vig-  
or, and energy. Dr. Williams' Pink  
Pills, says, "Some years ago my health  
started to fail. The doctor said my  
blood was thin and watery. He said  
my joints and limbs would ache and  
swell, until it was almost impos-  
sible for me to get up. I was weak  
and down, and no one knows how  
much I suffered or how discouraged  
I was. Reading of Dr. Williams' Pink  
Pills one day I decided to try them.  
I got a couple of boxes, and by the  
time I had taken them I felt a great  
improvement. I then got six boxes  
more and before I had taken them all  
felt like a new man. I was strong, vig-  
orous, and I could do my household  
feeling tired, and in fact I was en-  
joying better health than I had done  
for years. You may be sure I will  
always strongly recommend Dr. Wil-  
liams' Pink Pills to all other sufferers."

You can get these pills through  
any dealer in medicine or by mail for  
50 cents a box or six boxes for \$2.50  
from The Dr. Williams' Medicine Co.,  
Brookville, Ont.

This Never Happened

"Ta, you will give me a good lick-  
ing, won't you?"

"Why this, Lemuel?"

"I'm going to sneak off and go  
swimming, and I don't want to be  
bothered with a future." Cornell  
Widow.

Minard's Liniment Cures Colds, Etc.

Are Paying Penalty  
For Unpreparedness

Sir William Robertson Says Every  
Right-minded Person Will  
See War Through

"The war is likely to last a long  
time yet," said General Sir William  
Robertson, ex-chief of general  
staff, speaking at a meeting in Lon-  
don. "How long it will last no sane  
man would dare to estimate. One of  
the reasons why the war was not  
finished long ago is that we were  
unprepared for it when it began,  
while the enemy had been preparing  
for years. We are now paying the  
penalty for that unpreparedness,  
and the men who have caused the  
war to become bankrupt or ruined.  
But we have no intention of becoming  
bankrupt. We know that we must  
win." Sir William concluded,  
"that every right-minded person in  
the empire must use his mind to see  
the thing through."

"Annie Laurie"

Like an echo of the past comes  
word of the popularity of "Annie  
Laurie" with the British soldiers. "An-  
nie Laurie" is the queen of songs in  
trenches," says Sir Alexander Mac-  
Kenzie as quoted by The London  
Chronicle. The men who fought un-  
der the "Iron Duke" were bound in-  
to deeper fellowship by singing "An-  
nie Laurie," and it is well that its  
verse should abide—Springfield Re-  
publican.

Too Much

Judge—Now say, tell us about  
your marital relations—were they  
pleasant?

Minard—Pleasant enough, your  
honour. But they wanted to live on  
me all the time.

AFRICA'S BIG POPULATION

Every Eighth Person in the World  
Lives in the Dark Continent

Nearly one-fourth of the earth's  
land surface is comprised within the  
continent of Africa, and it is as far  
around the coast of Africa as it is  
around the world. Every eighth per-  
son of the world population lives in  
the Dark Continent.

The blacks double their number  
every forty years and the whites  
every eighty years. There are 843 lan-  
guages and dialects spoken among  
the blacks of Africa, and only a few  
of them written.

One area in Africa unoccupied by  
missionaries is three times the size of  
New England, a second would  
make four states like New York, and  
another is eighteen times the size of  
Ohio. Throughout Africa there is  
one missionary for every 134,000  
souls.—From the Christian Herald.

YES! MAGICALLY!

CORNS LIFT OUT  
WITH FINGERS

You say to the drug store man,  
"Give me a small bottle of freestone."  
This will cost very little but it will  
positively remove every hard or soft  
corn or callus from one's feet.

A few drops of this new either com-  
pound applied directly upon a ten-  
der, aching corn relieves the soreness  
instantly, and soon the entire corn or  
callus, corn, and dry, up and can be  
lifted off with the fingers.

This new way to rid one's feet of  
corns was discovered by a Cincinnati  
man, who says that he free zones in  
a moment, and simply shrivels up the  
corn or callus thus irritating the  
surrounding skin.

Don't let further dire of infection be  
brought from within the corn, but  
clip this out and make him try it.

If you druggist hasn't any free zone  
tell him to order a small bottle  
from his wholesale drug-house for you.

The Boy Was Hap

The Honorable—My boy, do you  
think the great is the tolerance of  
an oath before you commit yourself?

The Boy—Why, why, yes, sir. I  
think I will, you last Sunday.—Cor-  
nell Widow.

How's This?

We offer One Hundred Dollars Reward  
for any case of Catarrh that cannot be  
cured by Catarrh Cure.

Dr. J. C. Catarrh's Cure has been taken  
for the past thirty years  
and has become known as the most  
reliable remedy for Catarrh. Catarrh  
Cure acts directly on the mucous  
surfaces, expelling the poison from the blood  
and healing the inflamed tissue.

After you have taken Catarrh's Cure  
you will find that you will get a great  
deal of relief. Start taking  
it in your general health. Start taking  
it in your general health. Start taking  
it in your general health.

Sold by all druggists, 75c.

Eliminating Gunk Work

"Water, how can I tell if this is a  
ham sandwich?"

There's a Buffalo Express.

Requisite on the Farm.—Every  
farmer and stock-raiser should keep  
a supply of Dr. Thomas' Electric Oil  
on hand, not only as a ready remedy  
for ills in the family, but because it  
is a horse and cattle medicine of  
great potency. As a substitute for  
sweet oil for horses and cattle affect-  
ed by colic it far surpasses anything that  
can be administered.

An Astounding Dissembler

"What do you think of a man who  
will constantly deceive his wife?"

"Link he a wonder."—Cassell's  
Journal.

## Must Not Do Own Cooking

### Illness From Bachelor Meats Not Accidents, State Board Rules

Olympia, June 8.—When a man "batches" and does his own cooking, as a result of which he gets sick from eating meat, the state industrial insurance commission refuses to classify the same as an accident. As a result, the injured man is not eligible for compensation. This was decided in an opinion of the Mutual Lumber company of Tenino, for the loss of 15 days' time has been refused. When the claim was filed the cause was noted and an investigation made. Finding that the claimant did his own cooking, the state declined to pay the bill, holding that eating a bachelor's meal that causes illness is not an accident.

However, Percy L. Rogers, a mine worker at Clewelly, was allowed 22 days time lost for an injury sustained when a hunter took a shot at a rabbit and hit Rogers instead. The records do not show whether the rabbit was hit or escaped.

## Fate of Germany But Not Allies Will Be Decided

London, June 10.—Commenting on the new German offensive, the Star says: "The third phase of the battles which commenced March 21 will decide the fate of Germany. It remains to decide the fate of the allies; for whatever may be the issue, they will fight on until America and the Americans can turn the scale and deliver the final blow from Prussian hegemony. The Germans are not going to win. There are great armies of the French between them and Paris. "We expect these armies, with the rapidly increasing American army, to beat them flat. We decline to go half way toward defeat of any kind. We believe in victory, and nothing but victory."

"We have beaten the Germans in a hundred battles since Mons. We shall beat them now."

Blairmore, Alta., Fri. June 14, 1918

Considerable interest will be centered in the Dominion Day sports to be held in Lethbridge on July 1st under the auspices of labor organizations and the Department of Mines. Last year, this event was held at Coleman, but owing to the difficulty in securing the necessary transportation facilities it was decided to hold the festival at Lethbridge, which is the logical centre of the Alberta labor field.

In connection with the programme, which is varied and may be found on another page of this issue, the contest in mine rescue work will be one of the principal features. This year eight teams will compete in the mine rescue work, mine teams in the first-aid work (senior) and five or possibly six teams in the first-aid work (junior).

One of the government's mine rescue cars will be located in Lethbridge on July 1st.

Accommodation will be provided, and it is probable that a special train will be secured for the convenience of people from the Crows' Nest Pass district. If a special train is not provided, it is very probable that sleepers will be picked up at the five following points by the Sunday night train of June the 30th: Fernie, Michel, Coleman, Blairmore, Bellevue. In the event of sleepers being provided in place of a special train, they will be spotted at Lethbridge until 8 a. m. on July 1st.

In the contest held at Coleman on July 1st last, the Coal Creek team won the winner of the mine rescue competition; Galt No. 6 team, of Lethbridge, being second. The Coleman team won the first-aid contest, and the McGillivray team came second.

A shield, valued at \$35.00, will be presented to the school winning the physical drill contest, the shield becoming the absolute property of the winners.

## Add to These Your Store of Knowledge

"More than 2,600 miles of American railroads were equipped with black signals in 1917, an increase of about 700 miles from 1916."

"It takes but one twentieth of a second for a wireless signal to pass from Washington to San Francisco."

"The United States transport Leviathan, formerly the Vaterland made the round trip between New York and France in eleven days recently."

"Four new battleships have been added to the number used in 1916; they are mottled black, white, blue, and red."

"The total subscription to the second Liberty Loan was \$4,417,325,300."

"If every member of our International Union had said at February 28, 1917: 'I am going to secure a new member before this date in 1918,' and had made good, the membership would have been twice as large on February 28, 1918, providing, of course, our locals held their own and did not suspend members faster than they added new recruits."

A woman entered a Nova Scotia store the other day and purchased a quantity of oleomargarine at 38 cents per pound, and went the stuff back by a friend who disposed of it to that same storekeeper as No. 1 dairy butter at 60 cents per pound.

## Who Pays the Parcel Delivery Charges

The cost of delivering parcels is approximately four per cent of the total value, and about one half of these charges are delivered. Each of the \$300 per annum would, therefore, be a delivery cost of \$12.00, the delivery companies paying \$7.00, and the carrier receiving the balance of \$5.00.

The carrier customers, however, are sending more than this. Had all the parcels been delivered, the delivery cost would have been half a delivery charge of eight per cent added to the original cost of the goods.

Under the delivery system, the service rendered and paid for is as follows: The carrier customer receives \$1.00 worth of goods and pays \$1.04.

The delivery customer receives \$1.00 worth of goods and eight cents worth of delivery service—\$1.08, for he pays \$1.04.

Another phase of delivery cost is the number of small orders delivered to one customer. If the cost of each delivery, which averages six to ten cents, were added to each small order, the customer would object. Consequently it is added on a percentage basis, and thus the customer who groups his wants and places an order of larger amount is inclined to the delivery cost of the service supplied to the less considerate customer.

Thus, under the present delivery system, a sur-tax is placed upon the customer who carries his parcels, and is considered in ordering, while the customer who requires delivery service does not pay for the service received.

Canada is suffering from a shortage of man-power; all available help is required for production. Deliveries should be restricted to one or two days, all parcels of reasonable weight should be carried home, and, so far as possible, to operative deliveries should be established.

## Why Canada Must Produce More Food

The dangers of the food shortage and the necessity of the greatest possible production by Canada this year are emphasized by the following facts published in The Canadian Food Bulletin:

Lord Blandford says: "The Allied land is dangerously empty, but we are carrying on in the resolve that we can rely on the people of North America to prevent our food supplies from becoming so diminished as to imperil the issue for which we are all fighting."

Sir William Goode, Secretary of the British Ministry of Food, in a recent address said: "Few people have yet grasped the fundamental fact that Great Britain still relies on the United States and Canada for sixty-five per cent of her essential foodstuffs. Unless we can get the food, or nearly all of it, we shall perish."

Vicent Milner, member of the War Cabinet, speaking at Plymouth recently, said that the Allies were fighting for their lives and the very existence of the free nations of Western Europe. It was no longer a question of destroying Prussian militarism, but whether Prussian militarism would destroy the Allies and dominate Europe and part of Asia.

Mr. Herbert Hoover, United States Food Administrator, in a statement just issued, says that cereal exports to the Allies from this continent are 45,000,000 bushels short of the amounts promised, while meat exports are short of their planned quantities which it has been planned to ship and upon which the Allies were counting.

Even a short interruption in the supplies from this continent, upon which the Allies are now dependent for their daily bread and for most of their essential food supplies, would cause famine conditions. Reserve stocks of wheat and meat have practically disappeared. On a recent date France had only three days' supply of wheat and flour for her civilian population.

As the shipping situation makes the Allies dependent upon the North American continent for food, it is vitally necessary that Canada should increase her production of food in order to take a larger part in providing for the Allies' requirements.

Mr. W. J. Black, Federal Commissioner of Agriculture, in commenting on the way in which the farmers of Canada had taken up the question of greater farm production, stated that it was entirely to their credit. He said that, handicapped as they are by the labor situation, they are undertaking to do their best and have made a good beginning.

The efforts made by the provinces east of Alberta, for an increased acreage of four millions, indicated the seriousness of their efforts. Ontario is aiming at an increase of one million acres, Quebec six hundred thousand, and Saskatchewan hopes to duplicate Ontario's efforts. All are trying to keep the Allies from starving.

Throughout Canada the Soldiers of the Red movement is doing excellent work in securing the needed farm help. Alberta has already placed more than 650 older boys between 16 and 19 years of age on the land to further the food production, and it is hoped that at least 2,000 of such older boys can be secured in 1918.

**CANADA REGISTRATION BOARD**  
**CARD FOR MALES**  
TO BE FILLED IN BY DEPUTY REGISTRAR

DATE OF REGISTRATION: 1918  
MONTH DAY YEAR

1. Name of full surname last? Address (containing)?  
2. Age? Date of birth? Country of birth?  
3. Birth subject? By what name? If not subject, what year? What class?  
4. Single (S), Married (M), Widower (W), or Divorced (D)?  
5. Present occupation (if any)?  
6. What is your regular occupation? (a) What other work are you doing?  
7. If an employer, state employer's name? V. Address  
8. Do your circumstances permit you to serve in the present national crisis, by changing your present occupation to some other for which you are qualified? (a) If so, state new occupation? (b) If not, state reason?  
9. How long have you resided in Canada? (a) How long? (b) How long?  
10. Are you a naturalized citizen? (a) Yes? (b) No? (c) If naturalized, under what name?  
11. If registered under Military Service Act, what is your serial number?  
12. Do your circumstances permit you to serve in the present national crisis, by changing your present occupation to some other for which you are qualified? (a) If so, state new occupation? (b) If not, state reason?  
13. (a) When you bought up on a farm? (b) How long? (c) Where you worked on farm? (d) How long? (e) Are you a tenant farmer? (f) Do you have a horse? (g) How long? (h) Are you willing to do farm work? (i) How long? (j) Do you have a horse? (k) How long? (l) Are you willing to do farm work? (m) How long? (n) Do you have a horse? (o) How long? ## Procedure of Registration

On June 22nd every person residing in Canada, male or female, British or alien, of sixteen years or over, must attend one of the registration booths located in his or her district, and there observe the procedure explained below.

### Where to Register

Every person required to register has the privilege of registering at any of the public places provided for that purpose. The location of all such places will be specified in proclamations posted conspicuously.

The card shown in the illustration is a facsimile of the registration card for males. An advertisement showing the card for females appears in another paper.

Study the questions carefully so that you will be able to answer them promptly when registering. If you have any special qualification, or feel that your services would be more beneficial to the country in some other line of work, say so.

While all are compelled to register on Registration Day, it is not contemplated by the Government to force the sick, feeble and aged to turn out. If such persons will notify the Registrar prior to June 22nd of their inability to attend at a place of registration, an effort will be made to register them at home, provided the request is reasonable and justified.

Remember the Day—June 22nd—Remember the Hours—7 a.m. to 10 p.m. Register early and get your Certificate for your own protection.

24M Issued by authority of Canada Registration Board

### Alberta for this purpose.

Boys desiring to take part in this patriotic effort, and to secure the National Badge of Honor therefor, or for the purpose of securing additional help, are urged to communicate immediately with A. L. Marks, L.L.B., 327 Topley Building, Provincial Superintendent, Soldiers of the Red, who is placing the boys of farm throughout Alberta.

## "Record, Record, Who's Got a Record?"

The hospital ward was big and bare, just a huge figure in officer's khaki on his daily inspection, or perhaps a nurse bending over some helpless form, broke the uniform sameness of the rows and rows of white coats. In the center of the room, within earshot of all, a talking machine had been placed. To these wounded soldiers this was a gift from the skies, for music will soothe the sick, and the uniform sameness of the rows and rows of white coats. In the center of the room, within earshot of all, a talking machine had been placed. To these wounded soldiers this was a gift from the skies, for music will soothe the sick, and the uniform sameness of the rows and rows of white coats. In the center of the room, within earshot of all, a talking machine had been placed. To these wounded soldiers this was a gift from the skies, for music will soothe the sick, and the uniform sameness of the rows and rows of white coats.

This is just one instance of the many that occur in our military hospitals and rest homes, throughout the country, where the demands of returned soldiers are being cared for and who have come back reproducing machine or player piano, but a very poor and meagre assortment of records or player rolls. Can you not start today looking through your cabinet and sort out the records that will interest you and have become useless.

Think what it will mean to these various Soldiers' Homes and Hospitals to receive the selections of records that you have saved them, in care of your local branch of the Red Cross. So let's make this the record campaign for our country's heroes.

## Some Facts

### About The Bible

Here are some facts about the Old Testament that is just one man three years' time to figure out: There are 39 books, 929 chapters, 23,214 verses, 600,439 words and 2,729,109 letters.

The middle of the book is Proverbs. The middle chapter is Job XXIX.

### Local and General

There are 7,500,000 men in the British army and 420,000 men in the British navy.

**BORN**—On Tuesday morning, June 11th, to Mr. and Mrs. Alex. McFegan, a son.

A man is a two-legged animal who always thinks he needs a wife until after he gets one.

The Baptist convention will be held at First Baptist church, Calgary, on June 17th to 21st.

This item is copied from one of our exchanges: "This season is fully to it not three weeks ahead of 1917."

Thirteen United States ships were sunk by German submarines off the Virginia Capes last week, none of which were transports.

Portly conscientious objectors to wearing uniform, were sentenced by a court martial in the State of Texas to life imprisonment.

Chief Carter had his fire-arms out on Monday evening, and tested all the municipal hydrants, which were found to be in perfect working order.

It is estimated that three quarters of a million men will be obtained for the army by the United States registration, on June the 6th, of all youths who have attained twenty-one years of age since June 6th, 1917.

A decree has been issued by the French army authorities, categorically forbidding the selling or importation of alcoholic drinks.

A dance will be given in the Union hall on the night of Monday, June 17th, under the auspices of the Altar Society of St. Anne's church.

Fire gutted the premises of the Winnipeg Telegram the early part of the week did damage to the extent of about \$170,000, which was covered by insurance.

It is generally the fellow who doesn't know any better who does the thing that can't be done. You see, the poor fool doesn't know it can't be done, so he goes ahead and does it.

R. S. Howe, former proprietor of the Alberta hotel here, and now of Wrentham, was visiting his old friends in these parts on Monday. Dick is now a farmer and is looking well.

F. W. Doubt stopped over in Blairmore on Sunday on the way back to Trail from Calgary, where he had accompanied his son William, who has enlisted with the Royal Flying Corps.

At a meeting of the school trustees, held on Tuesday, it was decided to accept the offer of Dr. Lillie to conduct dental examination of pupils of the school. Reports and recommendations will be submitted to the parents through the children or trustees.

Nine thousand nineteen-year men have registered in Ontario.

J. E. Gillis attended a court session at Macleod on Tuesday.

Great Britain now has 123,500 war widows on her pension list.

Mrs. J. J. Murray, of Frank, is visiting her brother at Calgary for a few days.

The Fischer Creek chautauque is being held this week, and concludes tomorrow.

William O. Evans left for Rochester the early part of the week, where he will have his eyes attended to.

A new star, the brightest discovered in several centuries, has been detected by a professor of the University of Victoria.

We understand that the union of Baptist and Presbyterian Sunday-schools will take place until the first Sunday in July.

It was estimated in 1907, after a full enquiry, that the annual average loss caused in Great Britain by each rat was \$1.80, in France \$1.00, and in Denmark \$1.20.

Barber—"Have I shaved you before?"

"Customer—"Yes, you have."

Barber—"Well, I don't seem to recognize your face."

"Customer—"No, it's healed up now."

It is now illegal to deal whole sale in flour, bran, shorts or any foods made from wheat, or grains, or products of wheat or grains, or hay or straw, without first having obtained a license from the Canada Food Board.

No person may manufacture ice-cream, candy, cake, crackers, biscuits, pastry, confectionery, ice-cream cones, or chewing gum, without first obtaining a license from the Canada Food Board, on and after July 1st.

The scholars of the Institutional Church Sunday School, Coleman, are practicing pretty hard for the Anniversary Services to be held on Sunday, 23rd June. Rev. Dr. Ferguson, Supt. of Missions, is to be the special preacher.

A clergyman in Midland town, just before the service, was called to the vestibule to meet a couple who wanted to be married. He explained that there wasn't time for the ceremony.

"But," said he, "if you will be seated I will give you an opportunity at the end of the service for you to come forward, and I will then perform the ceremony."

The couple agreed, and at the proper moment the clergyman said: "Will those who wish to be united in the holy bonds of matrimony please come forward."

Thereupon thirteen women and one man proceeded to the altar.

In the case of Link Bros. versus the West Canadian Collieries, which was heard at the recent sitting of the District Court in Blairmore, judgment has been rendered in favor of the Company, who were represented by Mr. J. E. Gillis. In this case Messrs. Link Bros. claimed \$200 compensation from the Coal Company, for the loss of a bull which met death last year by tumbling into a cave on the Company's property near Bellevue.

A special session of the British Columbia legislature may be summoned in consequence of the situation which has arisen through the action of the federal government in disallowing the B.C. Settlers' Rights Act, amending act 1917, which let-in some 197 claimants who had failed to present their claims on or before the expiration of the time limit set in the 1904 act, as under which claims for lands aggregating some 33,000 acres were received, and two crown grants awarded to claimants.

The question involved is the right of the province to exact such legislation and its constitutional right to deal with such matters without the interference of the federal government.

W. S. Hobbick paid a visit to Blairmore this week and shook hands with his old friends.

Luke Lindoe returned last week end from Calgary, where he had been to volunteer for service with the Canadian Engineers.

**COLEMAN TOWN BAND**—Music for Dancing. Any number of players supplied. Apply to G. Beedington, secretary.

Alberta has not gone dry yet. We heard a preacher on the Coleman baseball ground on Wednesday calling for a "highball."

Norman Shaw, eldest son of Inspector and Mrs. W. Shaw, of Calgary, formerly of Blairmore, came to town the early part of the week.

A son was born to Mr. and Mrs. John McKegan at Halifax, N.S., on May 20th. Mr. and Mrs. McKegan until recently resided in Coleman.

**PIGS**—Whenever you want a pair of little Pigs, or any number of little pigs for that matter, drop a line to Charles Powlett, Crows' Nest Pass Dairy Farm, Cowley, Alberta.

The marriage of Miss Elize Bettinger, daughter of Private and Mrs. Leonie Bettinger, to Mr. Ernest Hauge, both of Blairmore, was solemnized by the Rev. W. F. Young at Frank on Saturday afternoon.

A stranger visiting Blairmore last week end declared that in all his travels through the province in no place outside the big cities had he witnessed such a rushing business on a Saturday night as in Blairmore.

A rather gruff looking chap entered the office on Monday and approaching the editor, said, "I want to get a copy of your paper for a week back." The editor replied, "Huh? you better try a gorous plaster."

"Mr. and Mrs. E. C. Keith left last week for Minnesota and Wisconsin. Mr. Keith will consult Mayo Bros. at Rochester regarding a troublesome growth on his neck, after which Mr. and Mrs. Keith will visit their old home in Wisconsin.

"What did you get out of that will case?" asked the first lawyer.

"One hundred and fifty thousand dollars," replied the second lawyer.

"Good round sum, eh?"

"Yes, but I thought the old man left more than that."

In addition to the registration staff mentioned in our columns last week the following have been added, and will occupy a booth at the office of the West Canadian Collieries: Deputy registrars—Mrs. B. Congdon and Miss Pearson; assistants—Miss Archer and Gossie.

It will be good news to automobile dealers to know that the new war tax will not have to be paid at once. Word comes from Ottawa that each dealer may obtain a warehouse license by paying a nominal sum. Dealers so licensed need not pay the special war tax on their goods at this time, but only as sales are actually made. The same applies to dealers in tea, jewelry, etc.

Capt. Joseph Grafton, of the 54th, less than a month from the trenches of France, has arrived at Calgary, and will visit The Pass this week end. Capt. Grafton will likely be stationed in the Alberta military district for a while.

Rev. P. J. N. Cosman paid a visit to Calgary during the week.

### NOTICE

You can assist the Deputy Registrar in your district, by obtaining a blank form of questionnaire in advance of registration day and presenting this completed to him on the 22nd of June at the registration booth.

R. KNOWLES,  
Registrar Macleod Electoral Division

### Little French Boy Died Like a Hero

Refused to Give Information to the Huns Who Shot Him

Lieut. Gen. Sir Robert Baden-Powell, addressing a central meeting of Boy Scouts at Guild Hall, told of work done by French Boy Scouts in the neighborhood of the fighting line. A heroic deed by one French Boy Scout was described in a letter found on the body of a dead German. General Baden-Powell read the letter, which follows:

"A traitor has just been shot—a little French lad belonging once to those gymnastic societies which wears the Tri-color button. The poor little fellow in his infatuation wished to be a hero. A German column was passing along a wooded dingle and the boy was caught and asked whether the French were about. He refused to give information. Fifty yards further on fire was opened from the cover of the wood. The prisoner was asked in French if he had known that the enemy was in the forest and he did not deny it. He went with a firm step to a telegraph post and stood up against it with a green vineyard behind him, and received the volley of the firing party with a proud smile on his face. Infatuated boy! It was a pity to see such wasted courage."

Waris will render the prettiest hands unsightly. Clear the excesses—away by using Holloway's Corn Cure, which acts thoroughly and painlessly.

**An Unfair Advantage**

A Peabody girl, writing to her Canadian sweetheart in France, inquired in her last letter: "What kind of a man is the censor who reads all of my letters and your letters to me and signs his name 'Opened by the censor'?" The censor added a footnote in her sweetheart's last letter, describing himself, and now the girl doesn't know whether she is in love with the censor or her old sweetheart—Peabody Gazette.

**More Appropriate**

"Why do they call them dental parlors?"  
"Why not?"  
"I should think it would be more appropriate to call them drawing rooms."—Boston Transcript.

**A Mental Error**

Where the Passenger Was When He Wasn't

A well-known provincial paper in England makes itself responsible for the following story:

The train was hopelessly overcrowded, and several people, who had achieved the upper deck, were transgressing all regulations by standing.

"Now, then," called out the girl conductor with emphasis, "you can't stand on top."

"Why," said one literalist, smiling blandly as he peered down the steps we are standing, whether we can or not?

The girl answered nothing, but promptly pressed a button. The car jumped forward, and the literalist involuntarily took a seat on the floor.

"There," said the girl, apparently in complete good humor, quoting the character in a famous play, "You think you can, but you can't," Christian Science Monitor.

**A Boon for the Biliaga**—The liver is a very sensitive organ and easily deranged. When this occurs there is undue action of bile and the result is liquid flows into the stomach and sours it. It is a most distressing ailment, and many a man has been brought to this condition a man finds the best remedy in Farmelee's Vegetable Pills, which are warranted to speedily correct the disorder. There is no better medicine in the entire list of fill preparations.

### Doukhobors to Stay

Veregin Closes Deal for 10,000 Acres of Prairie Land

Peter Veregin, leader of the Doukhobor colonies in Western Canada, has just consummated a deal for 10,000 acres of prairie land near Millmore, Sask. The payments for this land extend over a period of years and Mr. Veregin has given his pledge that he will not in any case return to Russia within that period of time.

"This proves," he said, "that our people are not planning on returning to Russia. Our religion prohibits us from fighting, but we are doing everything in our power to aid the war from a standpoint of production. We have taken no oath of fealty to the British crown; our beliefs forbid us to swear allegiance to any king but Jesus Christ."

Complete in itself, Mother Graves' Worm Extractor does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

### A Disillusioned German

After Four Years of It He Does Not Think War Is a Beautiful Thing

"The thought of war was always popular among Germans, and it became obvious during the two or three years which preceded the present conflict that our people had made up their minds that it was inevitable."

"In January, 1912, Gustav von Gumbert, writing in the Jung-Deutschland Post, declared 'War is the most exalted and the sainliest of human action. War is beautiful!'"

"Dr. William Fuchs, writing in the Berlin Post in December, 1912, declared 'Peace is not only shame, it is the end, the finish, of German greatness.' And in December, 1912, Dr. Schmidt-Gabbenfels, editor of the Anthropologische Zeitschriften, said in that periodical, 'War is beautiful, creation and for the maintenance of all that is good, beautiful, great and exalted.'"

"Then again the Tagliche Rundschau in November, 1912, said, 'If war did not exist, a real friend of mankind would invent it. Germans should consider war as a healer, as the doctor who not only cures all ailments of the soul, but those of the body also. Without it life would be absolutely impossible.'"

"Well, we have had war for nearly four years. Have any of these theories proved correct? Physically the war has caused the death of millions of men, and brought to the German people nothing but misery, privations and sickness. Psychologically it has wrought the decay of our morality and the deterioration of our family life."

"Instead of being a factor in our cultural life, war has produced nothing but has destroyed much, while diverting the attention of our people from every thought that is not connected directly with the daily struggle to find bread."

"And yet Otto von Goethe, declared in 1913 that 'war is beautiful.'"

"Fritz J. Nippold in Welt und Montag."

**Minard's Liniment Cures Garget in Cows.**

An Informal Visit

A member of the American Lafayette squadron had to make a precipitate descent and was fortunate enough to descend at a British aerodrome behind the lines, not, however, without making up things a bit.

After rescuing himself from the tangle of wires he limped slowly up to a barracks.

"Are you the big noise of this point?" he asked.

"I am the commanding officer, if that has anything to do with it," was the reply.

"Well," said the American, "I just looked in to tell you I have spread the petrol tank on your grass plot."

**Rules for Rules**

"What are the dining hours at your club?"

"From 5 to 8 for all except the committee."

"Why the exception?"

"Because rule 5 says: 'The committee is at liberty at any time to fill any vacancy in their body.'"

**How to Make Potato Butter**

Potato butter is recommended by the British ministry of food as a cheap substitute for butter, being made in England at a cost of less than 10 cents per pound, as follows:

"Peel the potatoes and boil until they fall to pieces and become floury. Then rub through a fine sieve into a warmed basin 14 ounces of potatoes and add 2 ounces of butter or margarine and 1 teaspoonful of salt. Stir until smooth and then mold into rolls and keep in a cool place. To make the appearance acceptable use butter coloring, and it intended to keep beyond a few days, a butter preservative should be added."

**Minard's Liniment Co., Limited.**

Dear Sirs—This fall got thrown on a fence and hurt my chest very bad, so I could not work and it hurt me to breathe. I tried all kinds of liniments and they did me no good. One bottle of MINARD'S LINIMENT, warmed on flannels and applied on my breast, cured me completely.

C. H. COSSABOOM.  
Rosway, Digby Co., N.S.

**"A Decent Form of Polygamy"**

The question of allowing Germans to have several wives must be considered very seriously as it is the only remedy for the shortage of German fathers. Germany has lost a considerable portion of its noblest racial blood. This is a patriotic idea. A decent form must be found for this kind of polygamy, which is the only way of combating the birth rate reduction.—Politisch-Anthropologische Monatschrift, Berlin, last week in February.

**Tired Nerves**

Many people feel the same way after a shopping tour, from riding on a train, or doing any work which requires the continued use and focusing of the eyes. Many are wearing glasses when what they really need is a nerve restorative, such as Dr. Chase's Nerve Food, to build up the exhausted nervous system.

By supplying to the tired, wornout nerves the elements from which new nerve force is created Dr. Chase's Nerve Food reconstructs the wasted nerve cells. Headaches, dizzy spells, sleeplessness and tired feelings soon disappear and you find yourself feeling better in every way.

It is worth your while to give this treatment a thorough trial, for the whole system is benefited, and the results are lasting.

**Tired after sewing!**

What a common experience, whether the work is done by hand or machine. It is not so much on account of the muscular exertion as because of the strain on the eyes.

You feel tired all over, because the nerves are exhausted. The optic nerve, which controls sight, is extremely sensitive, and when in constant use consumes nerve force at a tremendous rate. If the nervous system is not in good, healthy condition this strain is more than you can stand, and you have headaches, and feel all tired out.

**Dr. Chase's Nerve Food**

50 cents a box—do not pay more—at all dealers or Edmanco, Bates & Co., Ltd., Toronto. On every box of the genuine you will find the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, 19

**Forced To Descend**

Capturing the Three Members of the Crew of a German Airplane

Capt. Herbert Hartwell of Springfield, Mass., and Lieut. Walter France, of Oakland City, Ind., have been decorated with the French war cross by the French general commanding the Champs d'Yves sector, for capturing the three members of the crew of a German airplane, which had taken part in an air raid over Paris about a fortnight ago.

Capt. Wolf, a Prussian, and the pilot of the German machine, Lieut. Kammerer, the bomb dropper, were captured by Lieut. France, while the mechanical of the airplane, Sergt. Fisher, was captured by Capt. Hartwell.

"We were stationed near Clamecy when we heard that raiders were on their way toward Paris, and later we heard them returning towards their own lines," writes Lieut. France. "I could tell by the sound that their motor was falling and soon saw the German machine descending."

"The captain and I ran toward the Germans as their machine struck the earth. It landed against a shell crater, and the men were catapulted from the airplane. They then set fire to it."

"The Prussian captain was chased into an old, disused trench, where he was taken prisoner. Then the German lieutenant was pursued, but two shots from an automatic pistol soon halted him. We took our captives to our quarters, where we gave first aid to the captain, whose back was burned, and the sergeant whose back was injured."

"The lieutenant, who was unhurt, spoke English until the captain ordered him to keep silent. The German captain offered me his iron cross, but I refused to accept it. After the German machine had been set afire an undropped bomb exploded, but did no damage."

**His Credentials**

Mother—I don't like the looks of that little boy you were playing with on the street today. You mustn't play with bad little boys, you know.

Son—Oh, but he isn't a bad little boy, mama. He's a good little boy. He's been to the reformatory school twice and they've let him out each time on account of good behavior.

**Minard's Liniment Cures Dismember.**

What Will Win War?

Words won't win the war—  
Wishes won't win the war—  
Writings won't win the war—  
Wealth won't win the war—  
But wallows WILL win the war—  
John T. McCutcheon, in Chicago Tribune.

The best throw with the dime is to throw them away.—C. Simmonds.

**Increased Shipping Facilities**

The British admiralty has provided to provide ships to move all the wheat that Canada will spare. Only 34,000,000 bushels remain on the continent that can be possibly available for export, unless consumption in this country and the United States is very substantially reduced.

**True to Life**

Wife—I dreamed last night, dear, that I was in a box party at the theatre.

Hub—Oh! That explains why you were talking so loud in your sleep.

Boston Transcript.

**OF LOCAL AND GENERAL INTEREST**

A man in Southern Alberta by the name of "Nail" expects to go overseas to start a big drive.

Lethbridge churches are likely to change the hour for Sunday evening services from 7:30 to 8 o'clock.

Fords are likely to be used this year as bird dogs, owing to their capabilities in climbing trees and burrowing.

The railway bridge across Bull River on the Kootenay Central line, was washed away by the high current on Monday.

Bills are out this week announcing great sales at the stores of the Blairmore Trading Co., Blairmore, and Malina & Co., Frank.

The fishing season opens tomorrow, according to reports from other points, but nothing official has been received locally.

Lieut. W. G. Askey, of Pincher Creek, has been called to report at Military Headquarters, Calgary, to accompany a draft overseas.

Victoria city council has authorized the mayor to prohibit all future meetings of the International Bible Association in that city.

The French and British forces are making brilliant counter attacks against the Germans, which are being driven back at a rapid rate.

Have you purchased a ticket on the Red Cross autograph quilt? If not, you should do so, as the time for the drawing is fast approaching.

Deputy Registrar McDonald is now busy teaching the ladies how to avoid fluttering and blushing when giving the required information to the registrars on June the 22nd.

Lieut. Jack Grimshaw, of Hillcrest, is reported suffering from severe wounds. Lieut. Grimshaw was formerly a member of the firm of Leigh & Grimshaw, butchers and victuallers at Hillcrest.

A great many patrons of the local moving picture house were keenly disappointed on Thursday in not seeing the Bluebird picture of Violet Mercereau. The non-arrival of the fourth episode of the Bluebird is travelling in the Bluebird on Wednesday instead of Thursday, thereby causing keen disappointment to those who did not know of the change. However, there is a treat in store for next Thursday, June the 20th, for the patrons of the Bluebird. Carmel Myers in "My Unmarried Wife" is a picture worth while. Don't fail to see it.

Dr. R. K. Lillie is appearing before the "Cadi" at Bellevue this afternoon, to answer to the charge of speeding through that populace at a rate faster than a hen-trot. How the informant arrived at the rate at which Doc was travelling is a mystery, but the slouch in that part of the Dominion of Canada are evidently clever enough to invent devices which might be of great advantage to the allied strategists. We know that it has been tried over and over again to keep tab on the Doc in this vicinity, and the last heard of method was the use of Morency's car as a tracer and the trailing of the speedometer on a long and strong piece of string, similar to the instrument in use by mariners and known as a log. But unlike the ship at sea, the Ford naturally gets on a curve such as would a baseball from an expert player, and as a result that would-be log gets to be considerably unjoined and in such a condition that even the cleverest could never read its record.

The case, of course, has been dismissed.

Dr. MacDonald paid a business visit to Lethbridge last week end. High water on the Elk River is threatening to do damage to the city of Fernie.

Major Wallace, of Toronto, has been appointed successor to Major Hogbin as senior-chaplain of Military District No. 13.

Wage increases totalling more than \$300,000 annually have been granted the lower-paid workers of the Dominion Steel Corporation at Sydney.

The ladies of the Blairmore Red Cross Society are paying special attention to Trooper William John Evans, who is a prisoner of war in Germany.

Norman Shaw, son of Inspector William Shaw, of Calgary, has accepted a position with the West Canadian Collieries. Mr. Shaw is a war veteran, having returned home to Canada last year after performing good service at the front.

Mr. and Mrs. E. C. Keith left last week for Minnesota and Wisconsin. Mr. Keith will consult Mayo Bros. at Rochester regarding a troublesome growth on his neck, after which Mr. and Mrs. Keith will visit their old home in Wisconsin.

A young man in Alberta has written the registrar to say that because he was born in Quebec he is not a British subject and will not have to serve. He is likely to don the khaki in a hurry and cross the Atlantic on one of the fastest transports.

Lieut.-Colonel Stearns, R.N.W.M.P., has been appointed assistant provost marshal at Montreal, succeeding Major Philip MacKenzie. M. C. Colonel Stearns went through the northwest rebellion and subsequently joined the mounted police, attaining the rank of superintendent, acting in that capacity at Macleod.

Two little girls stood in the local post office on Wednesday afternoon and gazing up at a notice read slowly, "If—you—split—on—the—floor—at—home—do—the—same—here. We—want—you—to—feel—perfectly—at—home," then one of the pair exclaimed, "Gosh, who can feel perfectly at home in a post office?"

Tickets are being sold for the grand ball to be given under the auspices of the West Canadian Collieries, Mr. J. Charbonnier, patron, on Friday, June the 28th, at the opera house, in aid of the French Red Cross. The largest crowd that has ever assembled on a Pass dancing floor may be looked forward to, and a joyful time expected.

We understand that the man Barnhill, who sustained very serious injuries in the Frank mine last week, and for whom little hope of recovery was entertained, is doing well under the care of local physicians. Barnhill can wear a smile, after having received two broken shoulder blades, one broken arm, several broken ribs and other minor injuries.

A methodical survey of the entire Atlantic coast from the Mexican line to Halifax has failed to bring any evidence that German submarines have employed a shore base or have had touch with the shore at any point, but survivors of ships sunk off the New England coast state that a large supply ship accompanied the submarines across to this side of the Atlantic and that members of the submarine crew had stated that they were equipped to remain on this side until August.

The application for exemption of Romeo Rinaldi has been disallowed.

More than 700,000 American soldiers have been sent to France, while more than half a million have gone overseas.

The Montreal city council has decided to collect a \$10 tax from bachelors, but offers no bonus to newly-married couples.

Canada's net debt on May 31st amounted to \$1,144,235,627, according to the monthly statement issued by the finance department.

J. N. Willys, president of the Willys-Overland Motor Company, of Toledo, Ohio, is seeking a site in Canada for a factory to manufacture a new auto.

Report says that a cold wave has struck central Europe, including Germany, and spread over Holland and Scandinavia, and that widespread damage has been done to grain, fruit and potato crops by snow, hail and frost.

Chairman Hurley, of the American shipping board, announces that America's merchant marine in 1920 will be the greatest in history, aggregating 20,000,000 dead weight tons, and involving an expenditure of about five billion dollars.

A barrel of fresh pork, government inspected, was unearthed on the farm of Henry Bergmad, Fremont, Oio, as Bergmad was plowing to the field. The pork was found to be in good condition and is believed to have been buried in the ground, since the flood of March, 1913.

The sites selected for the posting of recruiting advertising in England are not always felicitous. Adorning an epileptic hospital one announces that "Every fit man needed." On the top of a coffin in a window of an undertaker's establishment the war office appeals to young men to "Fall in."

The Germans bombed British hospitals in France seven times between May 15th and June 1st. Casualties numbered 991. They were as follows: Killed, officers 11, others 318, nursing sisters 8, women's auxiliary corps 8, civilians 6; wounded, officers 18, other ranks 534, nursing sisters 11, women's auxiliary corps 7, civilians 73.

Every person over 16 years of age, men and women, boys and girls, must register on June 22. The registration is a very simple performance, just about as simple as voting. You go to the polls and give certain information about yourself. Every person should go. Every person must go. The information secured will be of very great value, not merely in the problem for further organization for the war, but as a foundation for the solution of many other problems facing us now, and which will press still harder after the war.

A negro who was well known to the judge had been hailed into court on a charge of having struck a relative with a brick. After the usual preliminaries the court inquired: "Why did you hit this man?"

"Judge, he called me a black rascal."

"Well, you are one, aren't you?"

"Yesah, maybe I is one. But judge, s'pose some one should call you a black rascal, wouldn't you hit 'im?"

"But I am not one, am I?"

"Naw, nah, naw, nah, you ain't one, but s'pose some one'd call you de kind of rascal you is, wh'd' you do?"

Remember, a week from tomorrow will be Registration Day.

A play, entitled, "Mrs. Wiggs of the Cabbage Patch," will be given in the Blairmore opera house on the night of Friday next, June 24th, by the school children of Grades I to IV, under the direction of the teachers. Starts at 8 o'clock sharp. In addition there will be marches, songs and drills. Proceeds for the Red Cross and school purposes. Tickets—Adults 50c., children 25c.

**NOTICE**

The Town of Blairmore having taken over certain properties within the town in lieu of taxes, same will be offered for sale by Mr. Archie McLeod, and plans showing location and information as to price, etc., may be had on application to his office. Some of the lots in question are good, well located for business or residential purposes, and at the upset price set on them would be good buys. The properties are to be offered for sale shortly by public auction, but intending purchasers would do well in seeing Mr. McLeod beforehand to make their choice.
